

GOVERNOR BEGINS THE ICE INQUIRY.

No Decision Will Be Reached In Van Wyck's Case for Ten Days.

(Special to The Evening World.)

ALBANY, June 14.—Gov. Roosevelt this morning talked over the case of Mayor Van Wyck and the Ice Trust in real earnest.

Contrary to general expectation he did not go into conference with Attorney-General Davies on his arrival last night. The Attorney-General was busy going over the Gardner case and had only a short talk with the Governor.

The time of the Governor and the Attorney-General will be so occupied for the next ten days that there is no likelihood of action in the Ice Trust matter within that time.

To-morrow the Attorney-General will be occupied with the various legal phases of the case before Justice Chester. On Friday he may again take up the Mayor's case, but on Saturday he leaves for the Republican National Convention, and will not see the Governor until the convention is over.

Gov. Roosevelt leaves to-night for Rochester, and then returns to Oyster Bay to remain until Saturday, when he will go to Philadelphia.

Attorney-General Davies openly expresses his doubt of the advisability of bringing a criminal action against the Mayor. The likelihood of a special Grand Jury to collect evidence against the Mayor is remote. The Attorney-General believes that if there is sufficient legal warrant for the removal of the Mayor for malfeasance in office the proceeding can begin in an orderly manner in response to the petition from The World already in the Governor's hands.

FORMING NEW ICE TRUST.

Apparently an Independent Company, but Really a Substitute for the Old One.

Fearing the abrogation of their charter as a result of the exposure of the ice monopoly, the leaders of the American Ice Company are quietly forming a new corporation to be known as the Manhattan Ice Company.

Apparently it is to be an independent organization, but one of its promoters, a friend of President Morse, said to-day:

"The Manhattan will be an independent company, but will maintain friendly relations with the American Ice Company."

Gustave C. Henry and other friends of President Morse who are pushing the formation of the new corporation refuse to say what it will capitalize for.

STILL CHARGING 60 CBNTS.

But When Customers Threaten to Patronize Competitors the Trust Drops to 40 Cents.

Ice King Morse admitted under oath in the World proceedings before Justice Gardner that the price of ice had dropped from 60 to 40 cents per 100 pounds. Despite this complaint the big monopoly is still demanding 60 cents a hundred.

With a view of ascertaining just what the American Ice Company is charging for the product The Evening World

MR. PLATT TALKS ICE.

With Mr. Quigg and George Dunn He Discusses the Scandal.

Chairman Odell was not at the Republican State Headquarters to-day. He is at his home in Newburg.

Senator Platt received Quigg and Railroad Commissioner George Dunn at his office just before noon. The three held a long conference.

The subject was the ice trust, and it is said Senator Platt signified his belief that the Governor had better move slowly.

The Senator wants Tammany Hall to punish Van Wyck. He does not wish the Republican Governor to do anything which will place the Mayor in the light of a martyr.

"This must not be done," the Senator is alleged to have said. "The Governor is obliged to have said that the investigation will therefore prolong the investigation until such time as the public demand becomes too clamorous to be withstood or until it is evident that Tammany Hall will consider some action on its part necessary for its own preservation."

This latter, however, will not take place before the arrival of Mr. Croker on the 24th inst.

TO LIFT PLAGUE BARS.

Quintessence of San Francisco Chinamen May Be Broken in Two Days.

SAN FRANCISCO, June 14.—The Board of Health has decided to raise the quarantine of Chinatown twenty days from the verification of the last case of plague, which was on June 2.

If no other case is found, however, the quarantine will not be lifted until twenty days from the date of such discovery.

Through Sunday if you've got all your summer goods, it is a

READY FOR ELECTRIC "L"

Contracts to Change Its Motive Power Given Out.

At a meeting of the Executive Committee of the Manhattan Railway Company to-day several contracts were approved which practically complete the apparatus necessary for the central power station at Seventy-fourth street and the East River.

The final report of the company's experts on the question of car equipment was considered and the committee directed the adoption of what is known as the double-end system, a motor car on each end of train, equipped with four motors sufficiently powerful to haul six-car trains.

Contracts were authorized for an electric stairway at Fifty-ninth street and Third avenue, and for one of another type at Twenty-third street and Sixth avenue; these to be followed, after trial, at other important stations by which ever seems to best meet the public needs.

Following the meeting of the Executive Committee the Board of Directors met and declared the usual quarterly dividend of 1 per cent, payable July 1.

The extension of the company's line ending June 30 shows 9,700,000 more passengers carried than in 1905.

The transfer system between the elevated railroads and the Third avenue surface lines has been available of during its first year by 1,970,000 passengers.

President Gould's report states that real estate has been secured for the central power station and several substations and additional yard facilities for 400 cars.

Six million dollars has already been

JAMES McCREERY & CO., Twenty-third Street.

TWO WEDDINGS IN COURT.

Essex Market Police Court this morning.

There were two marriages in the Essex Market Court to-day. Both were performed by Rabbi Morris Cohen, of 64 Norfolk street.

Joseph Adelheim, of 131 Stanton street, married Annie Fried, seventeen years old, of 312 Henry street. He had been in jail since Sunday for postponing his wedding too often.

As Rabbi Cohen was about to leave the court-room he was approached by another couple, who wanted the bonds of matrimony tied. They were Edward Engelhardt, of 54 Cedar street, Brooklyn, and Eva Kalanstein, of 961 First avenue. The good-natured rabbi complied with their request.

Bricklayer's Fatal Fall.

Rudolph Elmann, forty-two years old, of 63 East One Hundred and Forty-eighth street, a bricklayer, while at work on the sixth floor of the new building at 24 East Tenth street, fell to the yard of 41 East Ninth street and was killed.

EHRICH BROS.,

6th Avenue and 23d Street.

A WARNING TO CROKER.

Boss Told to Beware of Gluttonous Tammany Fools.

"A Tammany Hall Democrat" in the Manhattan and Bronx Advocate writes the following open letter to Richard Croker:

We welcome you home with both hands with the right hand because we are glad to see you, and with the left because we know you will set up a good old Tammany custom, which during your absence has been foolishly pulled down. This custom was the one of distributing patronage equally among the Assembly districts, except where a district earned a preference by exceptionally fine results at the polls.

It was this custom that made Tammany Hall the greatest political organization the world has ever seen, as pointed out by you some years ago in the North American Review; and yet this main support of the Tammany structure has, during your absence, been split into kindling-wood, piled upon the roof and set ablaze in the full view of the hundred and fifty thousand Democrats of the Wigwag.

What do these loyal Democrats behold? A spectacle to disgust them, for they see a half-dozen commissioners hauling a bullock up to their roof garden to roast and carve the animal for nobody but themselves.

They have thrown a horn or a hoof down to the expectant crowd of faithful workers who reside in other districts than theirs, but rarely a bone with meat or marrow to make a pot of soup, except for a son of Italy, blessed with the absence of normal appetite.

Tammany Hall has little to fear from outsiders. It is the gluttonous fools on the inside that do the harm.

WETMORE IS RE-ELECTED.

Rhode Island Legislature Sends Him Back to United States Senate by Unanimous Vote.

(Special to The Evening World.)

PROVIDENCE, R. I., June 12.—United States Senator George Peabody Wetmore was re-elected for six years to-day in the separate houses of the Assembly by an almost unanimous vote.
